New SOS Script: Human Health & Climate Change

Taking a health-related angle in communicating climate change establishes personal, human connections to the most important environmental issue of our time. Presenters include:

- Dr. Lisa Gardiner - UCAR Spark
- Dr. Mary Hayden - NCAR
- Eryka Thorley - UC Denver Medical Anthropology graduate student / NOAA SOS intern

SOS in the classroom

Science On a Sphere in the classroom is a flatscreen spherical data visualization tool in development. The SOS team seeks input from teachers by hosting a webinar that gives some background to the project as well as a live demo of the technology preview.
